

This guide is for Android 5+ Smartphone users.

AbiBird®

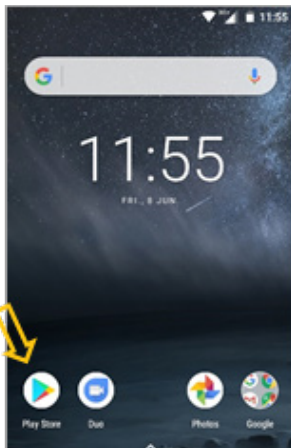

How to

Download AbiBird App and Create an AbiBird Account

Before you can use AbiBird you need to download and install the AbiBird app, and create an AbiBird Cloud account.

To download the AbiBird app and create an AbiBird account, you need to:

1. Access AbiBird app from Google Play Store
2. Install AbiBird app
3. Open AbiBird app
4. Create AbiBird Cloud account
5. Validate your email address

Step 1 – Access AbiBird app from Google Play Store

On your Android smartphone, select Google Play Store.

NOTE: If Google Play Store isn't on your home page, you will find it in *Applications*.

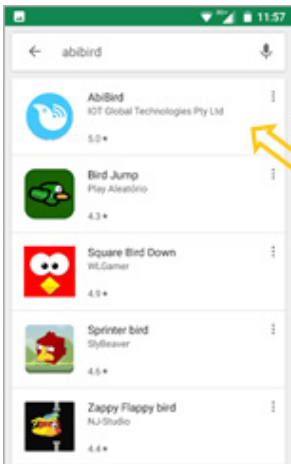

In the Google Play search field, begin typing **AbiBird**.

Select **AbiBird** from the predictive search results.

The search returns will open.

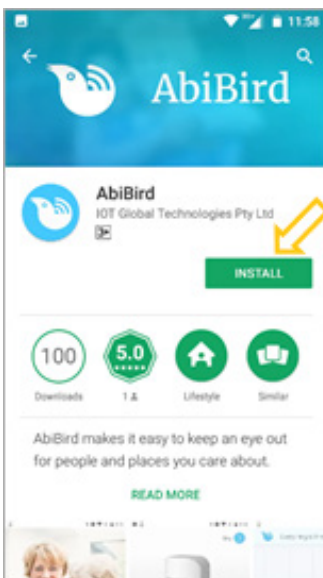

This guide is for Android 5+ Smartphone users.

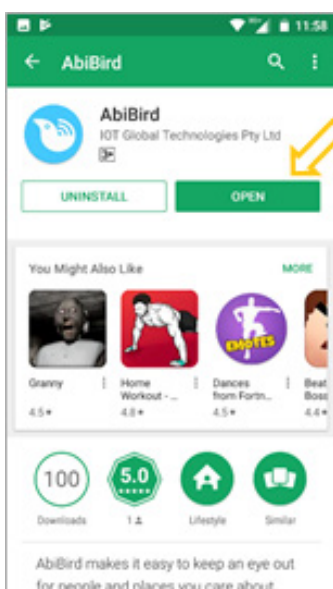

Select **AbiBird** from the search results.
The *AbiBird App* page will open.

Step 2: Install AbiBird app

On the AbiBird app page, select **INSTALL** button.
The AbiBird app will install

Step 3: Open AbiBird app

When AbiBird is installed, the **UNINSTALL** and **OPEN** buttons show.

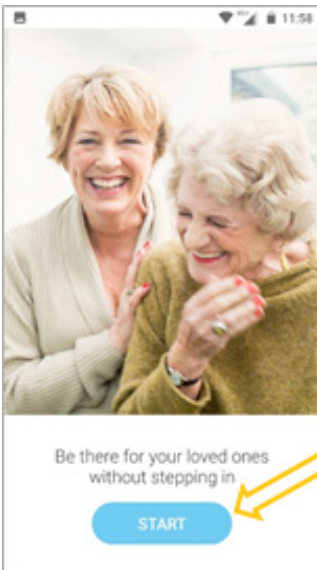

Select **OPEN** button.

The *Start* page will open.

NOTE: If you ever want to uninstall AbiBird, you would do it here.

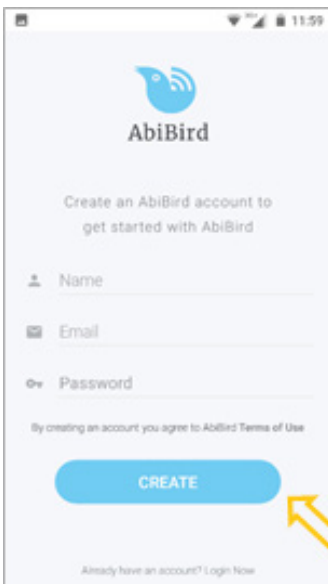

This guide is for Android 5+ Smartphone users.

On the *Start* page, select **START** button.

As this is the first time you're accessing AbiBird, the *Create an AbiBird account* page will open.

Step 4: Create AbiBird Cloud account

On the *Create an AbiBird account* page, enter:

- Your **Name**.
- Your **Email** address. This is your Username and it's where your notifications will be sent.
- A 6-digit **Password**.
- You will use this **Username** (your email) and **Password** whenever you login to AbiBird.

Select **CREATE** button.

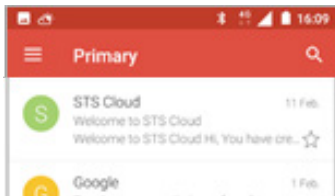

The *Let's connect your sensor* page will open and a validation email will be sent to your email address.

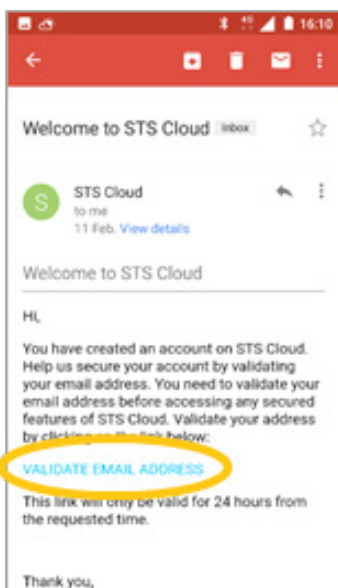

This guide is for Android 5+ Smartphone users.

Step 5: Validate your email address

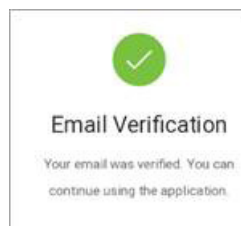

Before AbiBird processes your request and opens your Cloud account, it first makes sure it has the right person by sending you a validation email, called: **Welcome to STS Cloud**.

Open and read the email, then scroll down the page and select the **VALIDATE EMAIL ADDRESS** link.

You will receive a confirmation and your AbiBird Cloud account will be opened.

You can now return to the AbiBird app, where the *Let's connect your sensor* page displays.

That's it!

AbiBird is installed on your Android smartphone

Working in the app, you have:

- Downloaded and installed the AbiBird app from Google Play Store
- Opened the app, created an AbiBird Cloud account and validated your email address.

Next Step

Your next step is to connect your AbiBird sensor with your AbiBird app. See the guide: *How to Pair your Sensor with App and Account*
